

DOCKETED

Docket Number:	13-ATTCP-01
Project Title:	Acceptance and Training Certification
TN #:	232932
Document Title:	NLCAA 2015 Annual Report
Description:	N/A
Filer:	Joe Loyer
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	5/7/2020 11:57:04 AM
Docketed Date:	5/7/2020

National Lighting Contractors Association of America

ATTCP Annual Report***

The present report corresponds to the first period as ATTCP during the dates of November 2014 to October 2015.

February 25, 2016 Addressing the following:

- **Locations of acceptance test performed by county**
 - NLCAA project software has the respective city that the acceptance test was performed.
 - NLCAA will be modifying the software to indicate which county that the acceptance test was performed, and the number of acceptance test performed in each county. NLCAA 2016 November 1 report will reflect the number of acceptance test performed in that county.
- **Administrative Action (There were no disciplinary action taken for this year annual report) There were minor correction which were addressed to the respective employer and test technician.**
 - NLCAA policy
 - initial audit form is required for first acceptance test performed. Both the employer and test technician fill out a 9-page audit form. They review their first test to better understand their responsibility.
 - NLCAA staff reviews each audit to determine if the answers correspond to Energy Code requirements.
 - If the forms are not satisfactory, NLCAA may request to have a desk review.
 - NLCAA staff opens up the project acceptance test and review entries.
 - NLCAA sends via email corrective action to improve their testing
- **Field inspection is performed on the twelfth project to the acceptance test technician**
 - NLCAA sends an email to both test technician, employer, and designed field inspection. They scheduled dates and time for a field inspection.
 - The field inspector visits the project to review the lighting controls operation.
 - If the field inspection fails for minor issues. It is required to perform a field inspection on the next twelfth test.

- If the field inspection passes the next field inspection will be the 25th project.
 - If the field inspection shows testing was not performed. NLCAA will generate a formal complaint and will proceed to possible disciplinary action
- Total testing uncompleted of 69. This number reflects that employers that are just starting a project or in the process of completing.

Acceptance Test Technicians.

Activity	#
Acceptance Test Technicians certified during the reporting period	98
Acceptance Test Technicians certified since July 1st 2014	98
Acceptance Test Technicians currently under certification of NLCAA	98
Acceptance Test Technicians with certifications revoked during the reporting period	0
Acceptance Test Technicians with certifications surrendered during the reporting period	0
Acceptance Test Technicians with certifications under suspension on last day of the reporting period	0

Initial mandatory audit form

(Acceptance Testing Technician and their employer on their first acceptance test must fill out a nine-page audit form and upload it to our software) NLCAA reviews the completed forms to see if there is any answer to the question that may indicate a lack of understanding on testing procedures. If there is an issue, we email them back for further explanation or clarification. The intent is to help both employer and technician adhere to Standards.

Number of testing performed

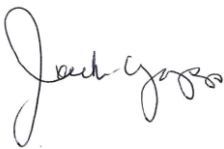

Total of testing performed by Test Technicians	314
Total of testing completed	245
Total of testing uncompleted	69

*November 1, 15

Requirements for ATTCPs to Provide Annual Reports. The ATTCP shall provide an annual report to the Energy Commission summarizing the certification services provided over the reporting period, including the total number of Acceptance Test Technicians and Employers certified by the ATTCP (a) during the reporting period and (b) to date. The ATTCP shall report to the Energy Commission what adjustments have been made to the training curricula, if any, to address changes to the Building Energy Efficiency Standards Acceptance Testing requirements, adopted updates to the Building Energy Efficiency Standards or to ensure training is reflective of the variety of lighting controls that are currently encountered in the field, no less than six months prior to the effective date of any newly adopted, or amendment to existing, Building Energy Efficiency Standards. All required reports shall contain a signed certification that the ATTCP has met all requirements for this program.

On March 11, 2015, the Executive Director Mr. Robert P. Oglesby approve NLCAA electronic forms. NLCAA has incorporated the approved forms in their training curricula.

NLCAA certifies that it met all requirements for this program.

Vice President of Training
