Green Team Youth Ambassadors

The Fresno Green Team Youth Ambassadors is a green job workforce development program focused on developing job opportunities for young adults 18-24 who are assigned to work in FMBCCC member organizations who are a part of the green economy. This year our Ambassadors worked in solar manufacturing, green mechanical design, certified green businesses, installed air quality monitors, and used purple water to clean residential and commercial facilities. This program trained 10 young adults and supported four member businesses and the chamber.
