Notice of Availability and Request for Comments

Draft 2020 Integrated Energy Policy Report (IEPR) Update, Volume I

Commissioner (CEC) Patty Monahan (lead for Volume I and overall *2020 IEPR Update*) is seeking public comments on the *Draft 2020 Integrated Energy Policy Report Update, Volume I (Draft 2020 IEPR Update)*. The *Draft 2020 IEPR Update, Volume 1* is available on the CEC's 2020 IEPR Update [web page](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2020-integrated-energy-policy-report-update-0) at <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2020-integrated-energy-policy-report-update-0>. Volumes 2 and 3 will be available at a later date.

Background

Public Resources Code Section 25301 requires the CEC to prepare an IEPR every two years that includes assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices. The CEC uses these assessments and forecasts to develop energy policies that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety.

Senate Bill 1389 (Bowen and Sher, Chapter 568, Statutes of 2002) directs state government entities to use the information and analyses contained in the adopted IEPR to carry out their energy-related duties and responsibilities. The CEC has coordinated closely with other agencies to ensure consistency in the underlying information used to develop this report.

The IEPR lead commissioner issued a scoping order on February 24, 2020, identifying topics to cover in the report. As detailed in the scoping order, the *2020 IEPR Update* is composed of three volumes:

- **Volume 1** focuses on California’s transportation future and the transition to zero-emission vehicles (ZEVs). Volume 1 is the focus of the *2020 IEPR Update*.
- **Volume 2** examines microgrids, exploring how they can contribute to a more resilient energy system.
- **Volume 3** provides an update on California’s energy demand outlook, updated to reflect the global CORONA virus pandemic and help plan for a growth in zero-emission plug in electric vehicles.

The CEC held 12 workshops between May 2020 and December 2020 on the topics identified in the scoping order. Information from the workshops and public comments were key inputs in developing the *Draft 2020 IEPR Update*. All workshop documents including agendas, background material, transcripts, presentations, and public comments, are available on the CEC’s 2020 IEPR Update [web page](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2020-integrated-energy-policy-report-update-0) at <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2020-integrated-energy-policy-report-update-0>.
