Docket No. 21-TRAN-02

NOTICE OF REMOTE-ACCESS  
WORKSHOP

RE: Staff Workshop on California  
Energy Commission Recovery and  
Reinvestment Initiative

**Pre-Solicitation Workshop for the California Energy Commission  
Recovery and Reinvestment Initiative  
Monday, April 12, 2021  
10:00 a.m.  
Remote Access Only**

The California Energy Commission (CEC) will host a remote-access workshop to gather stakeholder feedback on spending priorities and opportunities for funds dedicated to recovery and reinvestment. A quorum of commissioners may participate, but no votes will be taken.

The workshop will be held remotely, consistent with Executive Orders N-25-20 and N-29-20 and the recommendations from the California Department of Public Health to encourage physical distancing to slow the spread of COVID-19. The public can participate in the workshop consistent with the direction in these executive orders. There will be opportunities for public comment. Instructions for remote participation via Zoom are below.

## **Agenda**

The main goal of the workshop is to gather feedback from stakeholders to inform the development of funding options for the CEC's Recovery and Reinvestment Initiative.

The workshop will begin with two short presentations discussing overall guiding principles for use of the Recovery and Reinvestment Initiative funding, as well as anticipated opportunities within the area of workforce development. The remainder of the workshop provides an opportunity for public comment on the guiding principles for this initiative, as well as suggestions for project types to be considered for funding.

A detailed meeting agenda will be posted prior to the workshop on the [event page](https://www.energy.ca.gov/event/workshop/2021-04/pre-solicitation-workshop-cec-recovery-and-reinvestment-initiative) (https://www.energy.ca.gov/event/workshop/2021-04/pre-solicitation-workshop-cec-recovery-and-reinvestment-initiative).

## Background

Established in 2007 by Assembly Bill 118 (Nunez, Chapter 750, Statutes of 2007), the CEC's Clean Transportation Program (originally known as the Alternative Fuel and Vehicle Technology Program) provides funds for projects to develop and deploy innovative technologies that transform California's fuel and vehicle types to help attain the state's climate change policies. Each year, the CEC prepares an investment plan to determine funding priorities and opportunities.

In September 2020, the CEC approved the 2020-2023 [Clean Transportation Program Investment Plan Update](https://efiling.energy.ca.gov/getdocument.aspx?tn=235807) (https://efiling.energy.ca.gov/getdocument.aspx?tn=235807). The investment plan calls for \$10 million in funds to be dedicated to "recovery and reinvestment" in light of the COVID-19 crisis. Along with Clean Transportation Program general priorities, additional guiding principles for the funds are as follows:

- Speed of deployment
- Equity (including funds prioritized for communities most impacted by COVID-19)
- Job Creation
- Economic Development

In alignment with standard Clean Transportation Program processes, CEC staff intend to gather information from stakeholders to inform the future process for the distribution of these funds.
