Senate Bill 1000 Staff Workshop

Electric Vehicle Charging Infrastructure Deployment Assessment

Fuels and Transportation Division
July 8, 2021 | 10:00 a.m.
Housekeeping

• Workshop is being recording.

• Workshop Event Webpage: https://www.energy.ca.gov/event/workshop/2021-07/senate-bill-1000-staff-workshop

• Virtual Participation through Zoom
  • Raise Hand or Q&A feature
  • Telephone participants dial *9 to raise your hand

• Written Comments to Docket # 20-TRAN-02: https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=20-TRAN-02

   **Deadline: Thursday, July 22, 2021 by 5:00 PM**
Workshop Purpose

• Overview of 2020 and 2021 analysis and results
• Stakeholder feedback on 2021 analysis

Commitment to Diversity

The CEC adopted a resolution strengthening its commitment to diversity in our funding programs. The CEC continues to encourage disadvantaged and underrepresented businesses and communities to engage in and benefit from our many programs.

To meet this comment, CEC staff conducts outreach efforts and activities to:

• Engage with disadvantaged and underrepresented groups throughout the state;

• Notify potential new applicants about the CEC’s funding opportunities;

• Assist applicants in understand how to apply for funding from the CEC’s programs;

• Survey participants to measure progress in diversity outreach efforts.
Diversity Survey

One Minute Survey

The information supplied will be used for public reporting purposes to display anonymous overall attendance of diverse groups.

Please Tell Us the Following:

1. Your name and affiliation (company or organization)

2. Does your company/organization identify as led or owned by a) Disabled Veteran Business Enterprise, b) Small Business Enterprise, c) Women-Owned Business Enterprise, and/or d) Lesbian, Gay, Bisexual, or Transgender Business Enterprise?

3. If you represent a business/company, does your entity have certification (can be through national organizations, Small Business Administration, State of California, or municipal level)?

4. Location of your company (Northern, Central Valley, Central Coast, Southern, Tribal Land)

5. How you heard about this workshop

Please Email Responses to tiffany.t.hoang@energy.ca.gov with subject title, Diversity Survey for SB 1000 Staff Workshop
Clean Transportation Program Background

- Formerly known as the Alternative and Renewable Fuel & Vehicle Technology Program (ARFVTP)
- Established in 2007 by Assembly Bill 118 (2007)
- Extended to January 1, 2024 by Assembly Bill 8 (2013)
- Provides approximately $95 million of funding per year through 2023
- Investment Plan to determine funding allocations across various categories
Purpose of the Clean Transportation Program

Provides approximately $95 M of funding per year through the end of 2023

“...to develop and deploy innovative technologies that transform California’s fuel and vehicle types to help attain the state’s climate change policies.”

Complementary goals:

• Improve air quality
• Investments in low-income and disadvantaged communities
• Promote economic development
• Increase alternative fuel use
• Reduce petroleum dependence
Senate Bill 1000 Background

- Assessment of light-duty electric vehicle (EV) charging infrastructure distribution and access
- Focus on equity
- Informs Clean Transportation Program investments in light-duty EV charging infrastructure
Senate Bill 1000 Analysis and Results

2020 and 2021 Analyses
Objectives

2020 Analysis

• Assess the geographic distribution of public Level 2 and DC fast chargers across income groups, population densities, counties, and air districts

• Show differences in number of public chargers averaged across populations statewide

2021 Analysis

• Show drive time to DC fast chargers

• Present community-level (census tract) results
On average, low-income communities have fewer per capita chargers

Map of low-, middle-, and high-income communities

- Defined at the census tract level using Assembly Bill (AB) 1550 definition for low-income communities
- County and state median household income used for identification (adjusted by average household size of census tract)
- Same approach used by the California Air Resources Board to identify California Climate Investments Low-Income Communities (different data vintages)

Map of Disadvantaged Communities
Measuring drive times to fast chargers

12 minutes

2 minutes
Rural communities have some of the longest drive times to fast charging

Variation in drive times across rural communities

Rural Community Drive Time to DC Fast Charging Station
- 5 Minutes or Less
- 5 to 10 Minutes
- 10 Minutes Plus (Up to 240 Minutes)
- No Data

Northern San Joaquin Valley

Southern San Joaquin Valley

North Coast
Low-income communities have some of the longest drive times to fast charging

Variation in drive times to fast charging across low-income communities
Variation in drive times to fast charging across disadvantaged communities

Disadvantaged Community Drive Time to DC Fast Charging Station
- 5 Minutes or Less
- 5 to 10 Minutes
- 10 Minutes Plus (Up to 52 Minutes)
- No Data

Maps showing drive times to fast charging stations in Greater Los Angeles Area, Sacramento Area, San Joaquin Valley, San Francisco Area, and San Diego Area.
On average, disadvantaged communities are closer to fast charging but some drive times exceed 10 minutes

Sources: California Environmental Protection Agency CalEnviroScreen 3.0, U.S. Department of Energy’s Alternative Fuels Data Center charger data as of February 2021, and California Air Resources Board California Hydrogen Infrastructure Tool (CHIT) roadway data.
High population density areas are closer to fast charging

Source: U.S. Census Bureau 2014 – 2018 American Community Survey Total Population 5-Year Estimates, U.S. Department of Energy’s Alternative Fuels Data Center data as of July 2020 (chart on left) and February 2021 (chart on right), and California Air Resources Board California Hydrogen Infrastructure Tool roadway data.
1. How can drive time maps be used as a tool to help define areas to increase access for:

- Low-income communities?
- Disadvantaged communities?
- Rural communities?
Public Comment/Discussion

Zoom Participants
• Use the “raise hand” feature to make verbal comments
• Use the Q&A feature to type in your question

Telephone Participants:
• Dial *9 to raise your hand
• Dial *6 to mute/unmute your phone line.

2. How can we improve the mapping and provide more transparency with the data and results?

3. Are there additional data layers we should consider for analysis?
