NOTICE OF REMOTE-ACCESS
WORKSHOP

RE: Staff Workshop on the Zero-
Emission Vehicle Infrastructure Plan

**Notice of Workshop on the
Zero-Emission Vehicle Infrastructure Plan
January 20, 2022
1:00 p.m. - 3:00 p.m.
Remote Access Only**

The California Energy Commission (CEC) will host a remote-access workshop to present and gather stakeholder feedback on the Zero-Emission Vehicle (ZEV) Infrastructure Plan (ZIP). A quorum of commissioners may participate, but no votes will be taken.

The workshop will be held remotely, consistent with Assembly Bill 361 (Rivas, Chapter 165, Statutes of 2021) to improve and enhance public access to state agency meetings during the COVID-19 pandemic. The public can participate in the meeting consistent with the direction provided below. Please note that the CEC aims to begin promptly at the start time posted and the end time is an estimate based on the agenda proposed. The workshop may end sooner or later than the posted end time depending on various factors.

Agenda

The workshop will include a staff presentation on the ZIP followed by a question and comment period with the public.

A detailed meeting agenda will be posted prior to the workshop on the [events page of the CEC website](https://www.energy.ca.gov/events), <https://www.energy.ca.gov/events>.

1. Purpose, Vision, and Values of the ZIP
2. Coordination and Approach
3. ZIP schedule
4. Q&A and Public Comment

Background

On September 23, 2020, Governor Gavin Newsom signed Executive Order N-79-20, setting a 100 percent ZEV target for new passenger vehicle sales by 2035 and 100 percent ZEV operations target for medium-and heavy-duty vehicles in the state by 2045. The California Air Resources Board is developing Advanced Clean Cars II and Advanced Clean Fleets regulations to help the state achieve its climate and air quality goals. Similarly, many state agencies are coordinating efforts to support the transition to a zero-emission vehicle future for all Californians. The ZIP will support the ZEV Market Development Strategy developed by The Governor’s Office of Business and Economic Development (GO-Biz) in collaboration with multiple state agencies, addressing the “infrastructure” pillar of that strategy.

This workshop will seek early input to the ZIP which will further describe the state’s pathway to deploying the ZEV infrastructure necessary to support the level of ZEV adoption needed to meet state goals. An outline of the ZIP will be published on the event page before the workshop.
